

## LET'S GET STARTED

Help us learn a little more about the court of your dreams.

### 1 MEASURE YOUR SPACE

Measure the length and width of the surface where you want to place your VersaCourt.

- ✓ Is the court for indoor or outdoor use?
- ✓ Existing surface? Measure the existing concrete pad where you want to install your VersaCourt.
- ✓ No existing surface? Simply measure the area where you want to install your VersaCourt.
- ✓ Looking for a start-to-finish installation? Contact us for details 800-540-4899.

### 2 DESIGN YOUR COURT

Mix & match colors, add game lines and accessorize to create the court of your dreams.

- ✓ **SIZE:** Width and length dimensions.
- ✓ **GAME LINES:** What game lines would you like painted on the court?
- ✓ **COLORS:** What colors have you selected for your tiles and game lines?
- ✓ **LOGOS:** Do you want a logo? Provide a PDF or .JPG of the logo and details of where it will be located on the court.

## 3 GOALS

Determine the overhang of the basketball goal

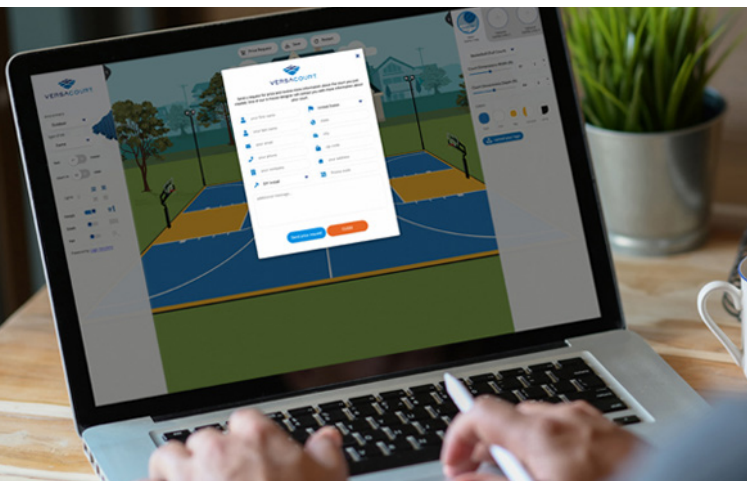

- ✓ No existing basketball goal in the ground? What is the measurement from the front of the pole to the front of the backboard? This is called the overhang.
- ✓ Already have a basketball goal in place? Measure from the edge of the concrete under the goal to the front of the backboard.

## 4 ACCESSORIES

Decide on any additional accessories you may want for your VersaCourt

- ✓ LED lights
- ✓ Adjustable net systems
- ✓ Shuffleboard Sets
- ✓ Pickleball Sets

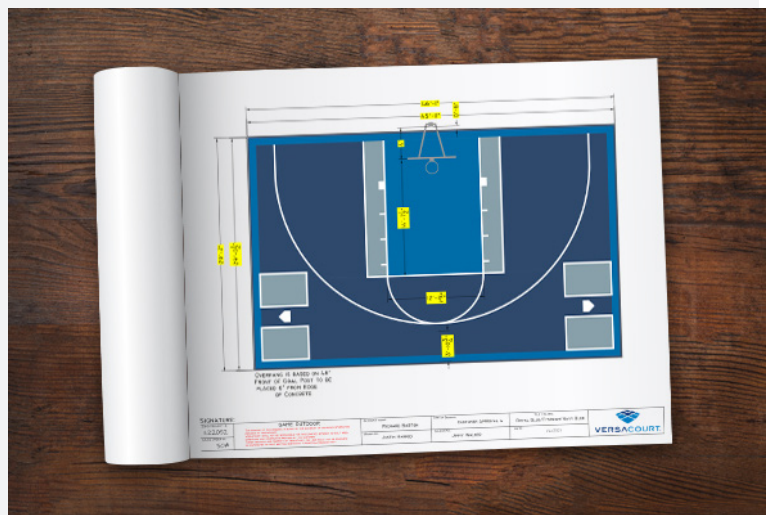

## 5 REQUEST A QUOTE

- ✓ Once all of the previous questions are answered, submit a quote request.
- ✓ You will be contacted within 48 hours by a VersaCourt team member. They will provide you with a custom quote that includes curbside delivery and a rendering of your court will be created to give you an idea of how your court will look.

## 6 PAYMENT, FINAL DESIGN APPROVAL & PRODUCTION

- ✓ **SUBMIT PAYMENT:** You will receive a receipt and Sales Order
- ✓ Receive final drawing for approval
- ✓ Once approved, court goes into production
- ✓ Receive a picture of the finished court before shipment

## 7 SHIPPING & INSTALLATION

Your court is disassembled into sections for shipping and numerically packaged for ease of installation.

- ✓ Payment balances are collected and court is shipped.
- ✓ When shipped, a picture of your shipment and the tracking information will be emailed to you.
- ✓ You will be contacted to schedule delivery. Lift gate service is provided unless declined at the time of placing the order.

**NOTE:** This will be a curbside delivery as freight carriers cannot access driveways. Additionally, items such as basketball goals, lighting systems, and containment fencing will arrive on larger/longer pallets that must be broken down inside the delivery truck. While some drivers will assist, there is never a guarantee, therefore you should be prepared to unload these items by yourself without the driver assisting.
